Double Eagle Petroleum Co. Presenting At IPAA Conference

Denver, Colorado – Double Eagle Petroleum Co. (**NASDAQ: DBLE**) announced today that it will be presenting at the Independent Petroleum Association of America's Oil and Gas Investment Symposium in New York.

The Company's presentation at the IPAA will take place at 10:55 am EDT on Wednesday, April 13th and will be followed by a breakout session immediately thereafter. A live web cast of the presentation is expected to be available through the IPAA's web site at www.ipaa.org, and the presentation will be archived on the Company's web site, www.dble.com.

About Double Eagle

Double Eagle Petroleum Co. explores for, develops, and sells natural gas and crude oil, with natural gas constituting more than 95% of its production and reserves. The Company currently has development activities and opportunities in its Atlantic Rim coal bed methane and in the Pinedale Anticline in Wyoming. Also, exploration potential exists in its Niobrara acreage in Wyoming and Nebraska, which totals over 70,000 net acres.
